NACHA DARAIO - FEDERICO D'ATELLIS

# TANGO CONCERT

Music by Piazzolla & more

## Duo - Voice & Guitar

The duo Daraio-D'Attellis performs a typically "porteño" repertoire full of emotions, images and sensations. Argentinean culture is present in every word, note and gesture, transporting the public to the corners of the vibrant City of Buenos Aires. Nacha Daraio's voice combines elegance, delicacy and nostalgia. Federico D'Attellis' guitar displays all his virtuosity in each of his musical arrangements.

The singed and instrumental repertoire reflects a balance between classical and contemporary tangos, including several authors and composers from the history of Argentine tango such as Astor Piazzolla, Carlos Di Sarli, Aníbal Troilo, J.C. Cobián, Carlos Gardel and Alfredo Le Pera, among others. The duo also expands its musical horizons and immerses itself deeply in the roots of Latin America, including traditional songs from Argentinean and South American folklore. During the concert the influences of academic and popular music training can be perceived, where Federico and Nacha master a sophisticated language that is at the same time directly related to its roots
